Play and Learn is a lively, communicative course for very young learners of English. It utilises subjects and environments familiar and interesting to this particular age group and contains pupil-centred activities, including games, rhymes and songs.

Play and Learn consists of twenty separate units. Units one to eighteen contain three lessons, A, B and C, while units nineteen and twenty each consist of a short story. There are revision lessons after every four units in order for pupils to consolidate the language skills they have acquired.

Play and Learn contains:

- colourful images and characters that evoke real-life situations
- a variety of activities that gradually develop pupils' skills
- fun, lively activities that give pupils the opportunity to be creative and to learn as they play
- ample opportunity for pupils to interact and put their newly acquired language skills into practice

Play and Learn gives pupils a thorough grounding in listening, oral, reading and writing skills and helps them approach the next stage in the language-learning process with confidence.
